OBJECTIVE

I'm a motivated third-year B.Tech Computer Science student with practical experience in software development and full-stack web technologies. I work with Java, Python, and JavaScript, and I've completed certifications in Power BI and web development. I've built several projects like games, automation tools, and data dashboards. I'm currently exploring cybersecurity through an AICTE internship with IBM SkillsBuild and have also completed internships in Python and Java. I'm looking for opportunities to use my skills in real-world projects and grow as part of an innovative tech team.
